

SELF-HELP GROUPS

Natasha Basalirwa - SHG beneficiary of Buwuma East

Natasha Basalirwa is a resident of Buwuma East, Butagaya sub-county and a beneficiary of the newly formed SHG groups. She is 23years old and a mother of 5 children.

“In 2023 I have joined one of FABIOs Self-Help-Groups to finally start saving. My dream has always been to make some good money from my tailoring job and therefore provide a better life for my children. But everytime I was lacking money and had a shortage of material I haven’t been able to work.

Now that I joined the SHG, I got a loan of shs 130,000 from the savings and bought materials to enable me to work. I'm happy that my customers are back now and my business is running again. I am using the bicycle that FABIO provided access some of my clients and sell my products. That gave me more financial independence and I feel I can give my children a more stable life.

I hope to have a bigger workshop to train tailoring to a number of girls in my community and give them the same possibilities.

Thank your FABIO for empowering me!”
